

Annual HIAS Secondary MFL Conference 2026

11 November 2026

Language Futures: Leading Change, Inspiring Success for all

Join us for a day of informative presentations, practical workshops, and engaging discussions at our annual Secondary MFL Conference. Designed for subject leaders, the conference will provide up-to-date knowledge, practical strategies, and fresh ideas to support and strengthen language teaching across Hampshire.

Whether you are new to a leadership role or an experienced practitioner, the programme will offer both support and challenge, helping you to drive improvement, embrace change, and inspire the next generation of language learners.

Kerry Yates, HIAS MFL Adviser and experienced language teacher and subject leader invites you to consider how the recent changes in MFL curriculum and developments in technology can support all young people to succeed in languages.

Jerome Nogues, secondary MFL specialist, languages consultant and MFL AI expert will be presenting an exciting practical session on AI for secondary language learners.

We are also looking forward to discussion sessions with feedback from the 2026 exams led by AQA and Pearson Edexcel exam boards.

The conference will feature a range of short masterclass sessions tailored to language leaders working in different contexts and at varying stages of their careers. As always, the event will provide an excellent opportunity to network with colleagues, share ideas, and exchange resources throughout the day.

Proposed agenda

- Moving forward with MFL for all
- Listening and reading skills for the new specifications
- AI as a tool for language success
- Write like a linguist – developing writing skills
- OFSTED – surviving and thriving!
- Exams review – 2026 feedback and next steps with Edexcel and AQA
